**Academic Opportunities:** Made In Italy offers 3 credit hours (ENGR 4060) with lecture topics taught by OSU Faculty. For a two-week period you will be exposed to various facets that have and are contributing to creating the *Made in Italy*. From architecture to design, from historical site to contemporary marvels, from engineering to manufacturing, from cuisine to nature, you will experience it all. The trip will begin in Milan, move to Modena, Torino, and conclude in Ivrea, the experimental ground of industrialist Adriano Olivetti. In this town on the foot of the Alps, for the good part of the XX century, Olivetti created a laboratory for architects, urban planners, industrial designers, graphic designers, and engineers, as well as for psychologists, sociologists, and social science scientists with an obsession for design and social concerns. The town would emerge as a unique archetype of an industrial city, prompting UNESCO to include Ivrea to its World Heritage this past summer.

**Eligibility:** Open to all students enrolled at OSU. Maximum program size is limited to 20 students. Minimum 2.25GPA required. Please check with your advisor to determine if credits will count toward degree requirements.

**Dates:** May 29—June 13, 2019. The trip will begin in Milan, move to Modena where we will explore the automotive and biofuels industry thru the Ferrari car manufacturing, then the City of Turin, and conclude in *Ivrea, the experimental ground of industrialist Adriano Olivetti.*

**Airfare:** Please do **NOT** purchase airfare until class sessions are held in spring 2019 semester and exact dates/times and other logistical deficits are determined. Group will be required to meet at set point and time in Milan to finalize rail card and other internal travel issues.
